KPEP's Response to COVID-19 and Our Commitment to You

On March 10, 2020, Michigan Governor Gretchen Whitmer announced that two confirmed cases of the novel coronavirus (COVID-19) have been identified in Oakland and Wayne counties. On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. As the virus continues to spread in Michigan and throughout the world, we want to take a moment to let you know what KPEP is doing to respond to this public health issue.

First and foremost, our number one priority is the safety and well-being of our staff, clients, families, and the communities in which we live and work.

We are closely monitoring health information and recommendations from our local and state health departments, the State Emergency Operations Center, the Centers for Disease Control (CDC) and the World Health Organization. We are also implementing specific safeguards to ensure the health and well-being of our staff and any individuals we may encounter in the course of our normal business day. And, we will continue to develop, update and share guidance with our staff so they are fully informed on how to protect themselves, their families and their clients against this emerging health matter.

While this health issue unfolds, please know that we remain committed to the needs of our clients, business partners and stakeholders. We have taken steps to ensure that our staff can continue to deliver the highest level of quality during this health alert.

As we navigate this time of uncertainty, we want to reaffirm our core principles: providing a safe and healthy work environment for our staff while delivering the highest level of service to our clients, business partners and stakeholders.

If you have any questions regarding specific protocols or services, please contact 269-383-0450.

Thank you.

William A. DeBoer
President & CEO
